DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species 1 -- Drawn to the *First Embodiment* of the Invention (see Figures 3-19 and Page 10, Line 5 - Page 29, Line 15 of the Specification);

Species 2 -- Drawn to the *Second Embodiment* of the Invention (see Figures 20-29 and Page 29, Line 16 - Page 42, Line 19 of the Specification);

Species 3 -- Drawn to the *Third Embodiment* of the Invention (see Figures 30-33 and Page 42, Line 20 - Page 47, Line 27 of the Specification);

Species 4 -- Drawn to the *Fourth Embodiment* of the Invention (see Figures 34-43 and Page 47, Line 28 - Page 59, Line 8 of the Specification);

Species 5 -- Drawn to the *Fifth Embodiment* of the Invention (see Figures 44-50 and Page 59, Line 9 - Page 70, Line 9 of the Specification);

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims appear to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 2673

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
